Dr. Paulo Muxanga  
Chairman and CEO  
Hidroeléctrica de Cahora Bassa  
Av. 2 5 de Setembro No.420, 6<sup>th</sup> floor  
Maputo, Republic of Mozambique

Dear Dr. Muxanga:

On behalf of the Board and Management of Manitoba Hydro, I would like to congratulate Hidroeléctrica de Cahora Bassa (HCB) on achieving a new record for annual generation.

We note that the 2009 production of 16 574 GW·h has surpassed the previous record of 15 847 GW·h set in 2007, a 4.6% increase in production. This is a significant achievement in the history of HCB, and the Board, management and staff of HCB are to be commended for their dedication in achieving this new milestone.

We wish you and your staff further successes in the New Year and we look forward to a continuing and mutually beneficial relationship between HCB and MHI.

Yours truly,

RBB/kc
